# European Qualifiers play-offs – Introduction

- 16 teams participate in the play-offs, getting a second chance to qualify for the UEFA EURO 2020 final tournament
- The 16 teams will be selected based on their results achieved in the UEFA Nations League
- The 16 teams will be divided in 4 groups
  - Each play-off path is composed of 4 teams
  - Each play-off path qualifies one team to the final tournament

---

## European Qualifiers Play-Offs - Key principles

1. Every league has its own Play-Off group if at least 4 teams are available
  2. Group Winners qualify for the Play-Offs
  3. Group Winners already qualified are replaced by next best ranked in the same league
  4. If not enough teams in the same league, Group Winners are replaced by best team in the overall ranking **BUT**
  5. Group Winners cannot play with teams from a higher league
-

---

## Select the 16 teams for the Play-Offs

1. Bottom-up process from League D to League A
  2. Select all available Group Winners
  3. Replace qualified Group Winners with next best from the same league
  4. If not enough teams in the league, for the open slot(s)
    - a. (there is a Group Winner) select the best team of a lower league
    - b. (there is no Group Winner) select the best team in the overall ranking
-

---

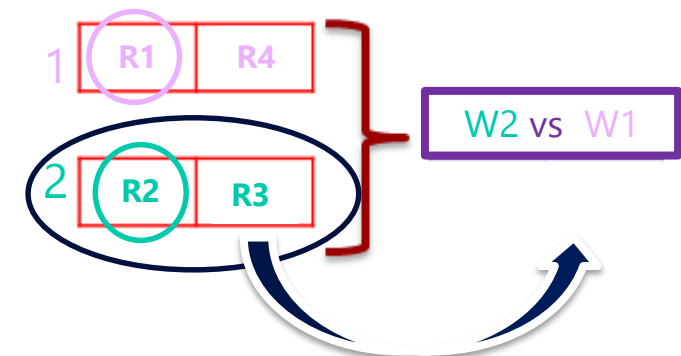

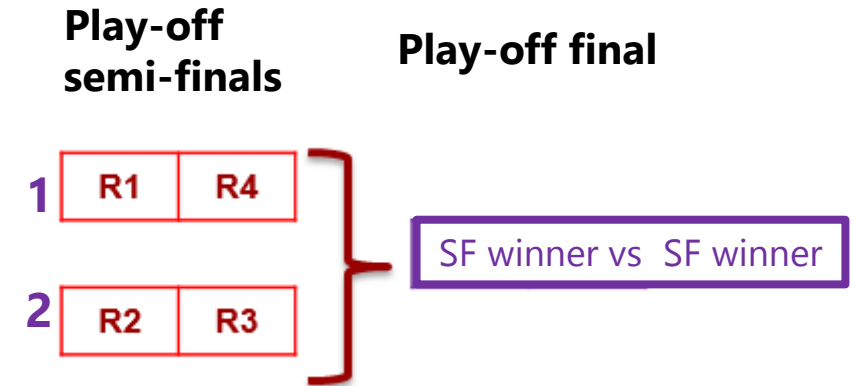

## Form the 4 Play-Off groups

1. Bottom-up process from League D to League A
  2. Form a path with 4 teams from the same league
  3. If more than 4 teams in the league, draw the teams in the group of that league (ensuring the Group Winners don't have to compete with teams from a higher league)
  4. Remaining teams are drawn with teams from higher leagues
-

# European Qualifiers play-offs – Venue and scheduling

- Each play-off path features two single-leg semi-finals and one single-leg final
- The two better-ranked teams, R1 and R2, host their semi-final
- The host of the final will be decided by draw:

*For example, if semi-final 2 is drawn, the winner of semi-final 2, R2 or R3, will host the final match*
